- Works from own office, working / available during normal office hours
- Professional attitude, motivated, reliable, good communicator, works to schedules
- Able to work on own initiative and within a team

Employment history

ADEW Consulting (2000 to present)

Working as a full time freelance Web Programmer. Work on own initiative, getting own work, working on multiple projects at a time – not a 'contractor' as such.

Using PHP, ASP, .NET, JavaScript to develop web based robust and reliable solutions, with on going support, for a variety of commercial customers, developing CMS, e-commerce and be-spoke solutions.

Synapsys Ltd, (1996 to 2000)

Working as a C++ developer in small company on several large-scale projects for the TV industry.

Responsibilities and achievements:

- Programmer on company's two Teletext production and management systems (for Analogue and Digital TV). Customers included the BBC, Sky TV, Teletext, CNN, and many other important TV companies around the world.
- Significant involvement in design, development, testing, supporting; some software management; all developed in small teams, under tight and pressured time scales.
- Some web based development involved in projects, and exploratory work with WAP.
- Rewrote 'Stenograph' keyboard interface for Subtitling systems. Used to key in subtitles for ITN and Sky and other TV companies.

Oxford Instruments, Accelerator Technology Group, (1994-1995)

1yrs. Work Experience, as part of Computer Science degree, role of Student Engineer.

Responsibilities included:

- Writing / modifying control system software on PC Windows 3.1 / OS9 systems using C and InTouch for company's 'Neutron Generators' and 'Particle Accelerators'.
- One of two network administrators / help desk operators, installing and maintaining the Novell Netware 3.26 network.
- Worked in small teams on various projects in demanding environment.

Student Proctor, University of Hertfordshire, (1995-1996)

Helped 1st year HND and Degree computer science students with ADA programming and Computer systems tutorials / practicals on UNIX and Mac systems (4 hrs. a week, for 8 months)

Education

BSc (2:1) in Computer Science (Software Engineering) at University of Hertfordshire. (1992-1996)

Loughborough Grammar School (1985-1992), 4 A-Levels: Computer Science, B; Maths, C; Physics, D; General Studies D. 9 GCSEs grades A-C
